Heel

In AngelitoS Group we continue the standard equivalents of sizing, this guide is for guidance. There may be modifications in the fit since we have a great variety of lasts in the manufacture of our shoes.

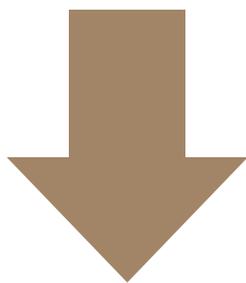

CM centimeters

To make sure of a correct measurement before buying. You have to measure the foot from the heel to the toe longer. Remember to measure both feet, as there may be a difference in size from one foot to the other. Furthermore, for a suitable measurement we must leave 3 millimeters of comfort.

Grupo AngelitoS

Footwear Manufacturers

In the artesanal tradition with an identity of their own Handmade Shoes (Handmade in Spain).

Sizes Annex

In AngelitoS Group we continue the standard equivalents of sizing, this guide is for guidance. There may be modifications in the fit since we have a great variety of lasts in the manufacture of our shoes.

If your size is greater than 27 cm or equivalent to N°41, you can print the annex sizes to check the measurement. Remember to join the two sheets printed by matching the rule.

To make sure of a correct measurement before buying. You have to measure the foot from the heel to the toe longer. Remember to measure both feet, as there may be a difference in size from one foot to the other. Furthermore, for a suitable measurement we must leave 3 millimeters of comfort.
